

## Esther Williams swimwear

Choose a swimsuit slowly because it is very important. You should have to try several Esther Williams swimwear. Each of them will sit in different ways. Try even the cuts that seem strange to you - sometimes they look a lot better shape than you thought. And, as always, look for those swimsuits that accentuate your strengths and weaknesses visual camouflage. If you have curvy hips and curvy breasts, the swimsuit should emphasize the chest and draw attention away from hips.

Pay attention to labels on the Esther Williams swimwear by many manufacturers. They will help you understand the benefits of a particular model. The label specifies six properties (minimize the bust, the maximization of the bust, support a large chest, lengthening the torso, thighs maximization) and in front of each line has a small hole. If this hole is painted it means that swimsuit has the above property. This is not a panacea, but for beginning will do.

Always choose Esther Williams swimwear on one size larger than clothes. When a suit is sitting very close the edge cut into the body and form unsightly wrinkles. Swimwear larger weaker squeezing the body, and therefore, the folds are not formed. Choose fabric with Lycra. Than more lycra in a bathing suit then better it will sit.

Check the internal content of Esther Williams swimwear. Many costumes are available to support the breast bone, magnifiers, bust, double lining and sewn details and waist stomach, which you may find useful.

Prefer darker colors or those that are in harmony with the tone of the color your skin. Keep in mind that dark colors slim and lengthen the figure. If the tone is combined with a bathing suit your skin tone then creating a wonderful monochrome vertical which must decorate you.

Do not buy Esther Williams swimwear with large drawings. Small, rare picture will look on you the most. A large picture will make you bigger. If you can not resist, choose a swimsuit, so that figure was distracting attention away from problem areas. The screenshot on the chest to deflect attention from the lush thighs.
